

igloo

**Exclusive to Few's
Marquees in the UK,
everyone is talking
about the Igloo.**

This is a unique structure, with internal heights of up to 14m, available in the UK with a span of up to 30m wide and unlimited lengths.

fewsmarquees

It has some impressive loading capacities with 3000kg per arch – which is more than 20 times greater than a standard marquee or temporary structures loading capacity, making the Igloo the perfect structure for an event with a large production element such as a concert or festival.

Enquire with Fews Marquees to see how the awesome Igloo structure could bring the wow factor to your event.

Already in use across the world the Igloo has housed product launches, corporate parties, festivals, sporting events, nightclubs, ice rinks and many more.
